PROFILE

Computer Engineering graduate with 3 years of experience as a Full Stack Engineer specializing in Node.js, JavaScript, and TypeScript. Experienced in building scalable web applications and working effectively in collaborative, cross-functional teams.

WORK EXPERIENCE

Nordstrom / Remote 10.2024 - 02.2026

Junior Full Stack Engineer

- Work on feature development and bug fixes by handling tickets and contributing to team projects.
- Use Node.js, React, TypeScript, AWS, Docker, SQL, and Python in production systems.
- Support CI/CD pipelines and deployment processes in a Docker and AWS-based environment

Ada Yazılım / Turkey 05.2024 - 08.2024

Software Engineer Intern

- Design and develop a full-stack insurance application using TypeScript, Node.js, Express, MongoDB, and React, including user and admin panels.
- Implement core features such as policy creation, approval workflows, and policy search and management.

Datasoft Yazılım / Turkey 06.2023 - 09.2023

Software Engineer Intern

- Develop and maintain web applications for HR service platforms using TypeScript, Next.js, Node.js, and PostgreSQL, supporting companies in streamlining human resources processes.
- Contribute to software improvements, new feature development, bug fixing, and database design/optimization.
